

Rota

Efficient, responsive and compliant rotas

Safe patient care demands the provision of suitably skilled medical staff located in the right clinical areas at the right time. Rota provides the tools to simply and quickly create rotas aligned to clinical need and workforce wellbeing, locking in working time compliance to alert and allow prevention of rule breaches. Exception reporting and monitoring is straightforward, facilitating the role of the Guardian of Safe Working Hours and minimising avoidable financial penalties. Rota is intuitive, responsive and applicable to all specialties and team configurations.

Easy build, easy access

Easily build resident doctor rotas, with straightforward access for exception reporting and monitoring

Assured compliance

Ensure all rotas are compliant with resident doctor contracts and working time directives, with system compliance checks providing demonstrable assurance

Reduced costs

Rota identifies and allows pre-emptive avoidance of penalties arising from rota non-compliance

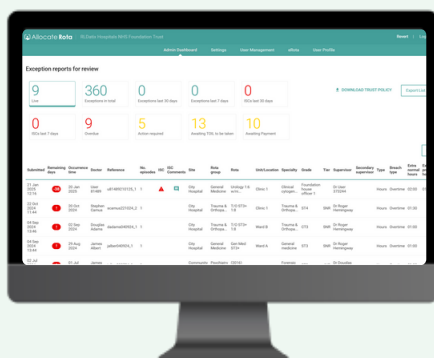

Enhanced safety

Support staff health and wellbeing by creating manageable and balanced schedules designed to avoid fatigue and promote fairness and wellness

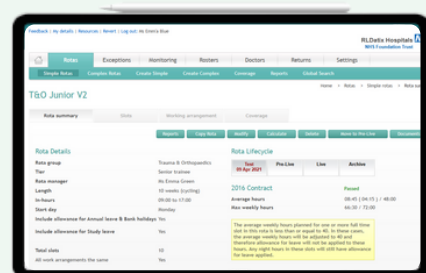

Efficient rotas, reduced burden

- Automatically push rotas into the Optima rostering solution, for a seamless transition into daily rostering, providing clinicians with clear visibility.
- Automatically calculate pay for all rotas, including mixed grade rotas, reducing errors and supporting accurate payroll processes.

Increased visibility

- Receive alerts and resolve any rule breaches ahead of publishing, supporting team wellness and productivity.
- Provide Guardians of Safe Working Hours with accurate data with intuitive dashboards and notifications for exception reporting and monitoring.
