

CloudStaff

Collaborative staff banks
made easy

Empower your workforce with a collaborative staff bank that drives retention, resilience, and regional flexibility across your health and care system. Attract more workers, from all staff groups, to the bank and reduce reliance on external agencies.

Build Resilience

Enable providers, clusters and ICBs to collaborate and share workforce capacity across trusts and staff groups.

Boost Retention

Give staff greater freedom, flexibility and access to opportunities across organisations and boost retention, job satisfaction and skills development.

Quick to Deploy

Uniquely integrated to RLDatix's workforce management systems and intuitive mobile app.

Scalable Collaboration

Start small with 1-2 trusts, then scale, without major cost or operational disruption. Aligning to transformation goals around shared services and workforce collaboration.

Enhance Safety

Improve patient safety and compliance with safe staffing. Gives complete visibility of shift bookings across a cluster resulting in efficient shift allocation with reduction in unsafe working practices.

8.5M shifts booked using our bank software every year

245,800 active flexible workers scheduled through our systems

“To retain our workers and encourage agency workers back to the NHS we needed to refresh our proposition to them. We can now offer more choice of when and where they work, support them in gaining new experience by working with different multi-disciplinary teams, and them to supplement their income.”

Sue Winter
South West London STP

The fastest, low risk route for organisations to automate the sharing of bank staff.

CloudStaff is the collaborative workforce platform built for the NHS and health and care. It enables Providers, Trusts and ICBs to share bank workers across regions, unlock staff mobility, and reduce pressure on overstretched internal banks, improving retention, choice, and shift fill rates. Unlike short-term agency solutions, CloudStaff is a strategic investment in your workforce: enhancing visibility, reducing unsafe working practices, and enabling better patient care. Uniquely integrated with RLDatix market leading e-rostering and bank management solutions, along with our intuitive mobile app, used by thousands of health and care staff.

“Agency savings measured in the tens of thousands in the first year. In the second year we’re focused on delivering hundreds of thousands. The foundation has been established and now it’s about scale; driving up bookings and recruiting, bringing up to an additional 500 more nurses onto the collaborative bank, especially as we look to expand to additional nursing groups.”

Chris Goulding
South West London Collaborative Bank

Benefits

- Builds resilience with a larger bank: access a bigger pool of NHS bank workers of all types, and known availability and quality.
- Safety and Quality: a fully integrated solution that builds upon e-rostering and bank to provide full visibility of worker availability and skills and prevents unsafe booking
- Easy to adopt: builds upon near-nationwide use of RLDatix e-rostering and bank solutions, meaning it’s quick and easy to implement.
- Simple for workers: an intuitive mobile app makes it easy for workers to find and book shifts or sessions, submit timesheets and check their schedules.
- Makes bank more attractive: grow your bank with a refreshed proposition of increased choice, improved flexibility and more opportunities to gain experience.
- Reduces reliance upon agencies: establish a new line of defence against the use of higher-cost agencies.

“It’s smart and simple. I check the Loop app, book the shift, arrive at St George’s to work and I’m paid each week.”

Stuart McKeon
Healthcare Assistant from Kingston

Features

- Integrated: a single, fully integrated solution that supports existing workflows and processes.
- User friendly: simple additions to existing e-rostering and bank solutions.
- Automated: automatically cascade unfilled duties to the larger pool of workers at the required time.
- Adaptable: configure to organisation requirements, according to service and worker type.
- Rules and restrictions: prevent unsafe bookings and working practice according to existing organisation rules and cluster-wide rules.
- Controls: determine when workers can join the collaborative bank.
- Shift bookings: worker self-booking or book workers from e-rostering or bank solutions.
- Payroll: supports multiple options, including InstantPay.
- Worker mobile app: provides single access point for work life: locations, availability, bookings, timesheets, payments. available in direct engagement providers

FEATURE	VALUE
Mobile App	Staff manage shifts, timesheets, and documents from one place for freedom and flexibility
Automated Shift Cascade	Unfilled duties cascade across partner Trusts as needed
Safe Staffing Rules	Set rules across the collaborative to prevent overwork and risk
Modular Rollout	Start small (e.g. one staff group or Trust), scale easily
One-Click Visibility	Full insight into staff movement across systems

Uniquely integrated with RLDatix’s market leading e-rostering and bank management solutions
